TITLE: W.I. FOR 5th STAGE			

TITLE: Sticker Pasting Process

1. TOOLS REQUIRED:

S.NO.	ITEM NAME	UOM	QTY.
1	Hot Air gun	Nos	1
2.	Colin liquid	Nos	1
3.	Sticker Squeezer	Nos	1
4.	CIF polish cream	Nos	1

2. ACTIVITIES:

1. Use a hot air gun to carefully remove the old sticker from the device, especially if it's damaged or has dirt underneath.
2. Clean the area of the device where the old sticker was removed using CIF cream to ensure it's free from any residue.
3. Once the surface is clean and dry, apply the new aesthetic sticker. Use a squeegee to firmly press the sticker onto the device, ensuring there are no bubbles or air gaps.
4. Check thoroughly to make sure the sticker is securely attached and smooth on the device surface.

3. SCRAP DISPOSAL:

Keep the remaining part of EPS Sheet in the respective bins only

4. SAFETY INSTRUCTIONS:

Keep the material away from the gang way

5. CHECKS:

Ensure that the rocker switch connections are done correctly

6. RESPONSIBILITY:

Operator

7. Quality Check

Ensure that Paste stickers are properly pasted or not and check for any missed spots during cleaning.
